## MONOCHROME DIALOGUES

A GROUP SHOW | AUGUST 2023

**MONOCHROME DIALOGUES** invites you to immerse yourself in an exploration of artistic worlds woven by **Astrid Dahl, Bevan de Wet, Mariapaola McGurk, Marke Meyer** and **William Kentridge amongst others**. Within the domains of sculpture and works on paper, these artists engage in a captivating exchange that transcends their mediums. This chromatic convergence, in which artworks predominantly exist within the realms of black, white and greyscale palettes. These palettes are delicately complemented by hints of bronze, sparking meaningful dialogues where various art forms interweave, collide, and ultimately find harmony.

## **Description**

This is a one-line drawing I made at the residency in Howick. I would like to cut out the drawing around the edges, and then have it framed and sold, as is. I have previously sold large drawings with no 3D elements, and would like to ask the gallery to give this work a chance as is. The cut-out edges will still give it the typical Odette-flare, but I do not want to work into it as the one-line element will be disrupted by anything I build onto it. The drawing was made on my first day at the Mushroom Farm and captures a fast, expressive mark-making that was very releasing. I don't want to alter the essence of it by adding any new elements.
